

Replacement Claims

IN THE CLAIMS:

1. A micromachining surface treatment material, containing less than 0.1% by weight of hydrofluoric acid, and more than 40% by weight, but less than or equal to 47% by weight of ammonium fluoride.

4. The micromachining surface treatment material of Claim 3, said surfactant is one of, or two or more of, a fatty amine ($C_nH_{2n+1}NH_2$; $n=7$ to 14), a fatty carboxylic acid ($C_nH_{2n+1}COOH$; $n = 5$ to 11), or a fatty alcohol ($C_nH_{2n+1}OH$; $n = 6$ to 12).
